Dear Adelina

Hi and many thanks for all efforts that you and all team are doing to have the best and the most strong nominees for the next ICNA presidency. Surly many scientific and worth characters are now working with ICNA promoting child neurology science all over the world. However for this position you need nominees who have strong enough executive and leadership personality in addition to scientific character.

Professor Haluk Topaloglu is one of the brilliant characters that need to be discovered better at this time. I have had this opportunity to have scientific collaboration with him in the past few years and I believe he is the one whom you are looking for. Kindly contact him for Biosketch and vision as the nominee for this position .

Best wishes

Nomination for President elect ICNA

Jo Wilmshurst <jo.wilmshurst@uct.ac.za>

Mon, Apr 6, 2020 at 7:18 PM

To: Ingrid Tein <ingtein@sympatico.ca>, "office@icnapedia.org" <office@icnapedia.org>

Dear Ingrid and the nominating committee

I would like to nominate Prof Haluk Topaloglu for president elect of the ICNA.

Having worked indirectly with him and now directly through his position on the EB I have been extremely impressed by his commitment to child neurology. This includes his consistency in completing projects (eg his input into the position statements), his willingness to support the association (from his position as co-chair of the ICNC2022 scientific committee) and his overall willingness to engage in any ICNA activity.

Further he is recognised as an expert both in child neurology and for neuromuscular diseases and has used his academic expertise to the benefit of the ICNA.

Kind regards

Jo
